

“1st Stem Cells & Organoids Symposium”

Jointly organized by

Prof. Claudia Bagni, Thi Kim Do Cuenod, Nicole Déglon and Renaud Du Pasquier

4 April 2018

Program

09:00-09:15 Opening introduction.

09:15-10:05 **Giuseppe Testa**, University of Milan, Laboratory of Stem Cell Epigenetics.
Title : TBA

10:10-11:00 **Kristen Brennand**, New York Stem Cell Foundation-Robertson Investigator
Title : Modeling rare and common risk factors for schizophrenia using stem cells

Coffee break

11:20-12:10 **Laura Ballerini**, International School for Advanced Studies, Trieste, Italy.
Title : Active neuronal interfacing: carbon based nanomaterials for stimulating, replacing and re-directing axon growth

Lunch

13:30-14:20 **Valentina Fossati**, The New York Stem Cell Foundation
Title : TBA

14:25-15:25 **Oral presentations TBA**

15:25-15:55 **Denis Jabaudon**, University of Geneva
Title : TBA

Coffee break

16:30-16:50 **Sylvain Perriot**, CHUV-NLG
Title : TBA

16:55-17:15 **David Pamies**, Department of Physiology
Title : TBA

17:20-17:40 **Yvan Arsenijevic**, HOJG
Title : Retinal cells derived from iPSC to test gene transfer and drug administration

17:45 **End of the Conference**
